

What we
have
already
achieved

Pre 2023

Fossil fuel free Head Office
Introduced e-invoicing
Electricity from 100% renewable sources
Sustainable Purchasing Policy
Actively managed haulier network - least cost routing & minimised empty running including use of railheads
Maintaining accreditations ISO 45001, 9001, 14001
Hauliers encouraged to obtain FORS accreditation
ECO-I North West Training (MMU)

2023

Company fleet transitioned to hybrid or fully electric including 4 new ev charging points
100% non hazardous waste diverted from landfill – recycled or used to generate electricity
Mileage management data capability embedded
Improving biodiversity at Head Office

2024

Understand our carbon footprint
Paper based admin replaced with scanning solution & customer portal
Solar power at Head Office
Sign on glass technology for PODs
Explore bio fuel options for Quarry Operations
Identify reduction opportunities for scope 3 emissions

Beyond

Action plan to monitor & reduce scope 3 emissions

Action plan to monitor & reduce scope 1 & 2 emissions

Our Roadmap to Net Zero
